**SPORTS
GROUNDS**

No smoking in spectator areas at public sports grounds

THE FACTS

Section 6A of the *Smoke-free Environment Act 2000* makes a number of outdoor public places smoke-free.

From **7 January 2013**, smoking is banned in spectator areas at public sports grounds and other recreational areas in NSW. However, smoking will only be banned when an organised sporting event is being held.

Major sporting facilities are included under the definition of a public sports ground and will be required to comply with the new law. Other outdoor sporting facilities, such as Local Council playing fields, are also covered by the new law.

Will smoking be banned only in spectator areas which are covered?

No. The smoking ban applies to all spectator areas at sports grounds and other recreational areas when they are being used for an organised sporting event. The law applies to both covered and uncovered spectator areas and whether seating is provided or not.

Will the ban only cover the time that the players are competing?

No. The smoking ban applies during the entire duration of the organised sporting event. This will include not just when the players are competing but pre match and half time games and entertainment that form part of the sporting event.

Will there be signage to indicate where smoking is not permitted?

Due to the vast array of different sports grounds and recreational areas, the new law does not require signs to be displayed to indicate that smoking is not permitted in spectator areas at sports grounds and other recreational areas during organised sporting events. However, signage may be required in the future if regulations are made requiring a class of sports grounds or other recreational area to display signs.

What is a spectator area?

A spectator area is an area set aside for or being used by spectators to watch an organised sporting event at a sports ground or other recreational area, but only when an organised sporting event is being held there.
