

Policy Notification FY2425-2 – Electronic and Postal Ballot Policy

The constitution provides that:

- the AFA may hold a postal or secure electronic ballot, as determined by the AFA committee, to decide any matter, including the election of AFA committee members, other than an appeal against a dispute decision or a disciplinary action decision;
- a postal or electronic ballot may not be held unless the AFA committee has published a policy detailing how postal and electronic ballots will be conducted.

At its meeting on 2 September 2024 the AFA committee adopted a policy for the purpose of satisfying the condition in the **constitution** for holding a postal or electronic ballot by detailing how such ballots will be conducted.

The policy is effective immediately and will be published on the website shortly.
