

## **Rule Notification FY2526-5 Demonstrations and Training Days Policy**

At its meeting on 6 April 2026 the AFA committee adopted a policy relating to demonstrations and training days the purpose of which is to:

- specify what information clubs must provide in a sanction application for a demonstration of training day
- set put conditions applicable to the conduct of demonstrations and training days
- confirm when the fees must be paid for the use of the EJS and matting at a demonstration or training day.

The policy can be found here [insert link]. It does not apply to demonstrations and training days already sanctioned or for which sanction applications have already been lodged.

### **Background**

The rules include comprehensive provisions for the sanctioning and conduct of race meetings but only limited provisions applicable to other flyball events. The AFA committee considered it important to address this inconsistency in order to provide clarity for clubs wishing to conduct these events.

The committee noted that clubs were taken varying approaches to charges for participation in these events and wanted to provide clarity for clubs on when the committee will not require payment for use of AFA equipment.
