2016 AFA AGM – Submitted member Motion for Ballot.

Under the AFA Constitution members had until Friday the 29th July to submit member motions to the AFA in writing for submitted to the AGM for show of hand ballot.

As at close of submission date only one Motion had been submitted for ballot at the 2016 AGM:

1. Motion for the removal of false start from flyball competition.

Statement submitted by member in support : Competitions are always running behind and there are already limited places for teams to enter an event. False starts are taking up a lot of time when we are already on a tight schedule. Almost every heat has false starts. By the time 1 heat has been run (after both teams have had one false start each) we could have completed the 3rd heat if there were no false starts allowed.

This is because of the 0.000 badge which starters are trying to win. The 0.000 Badge promotes selfishness in what is supposed to be a team sport.

Handlers running 2nd, 3rd or last dog do not get a second chance if they have a false cross. The box loader doesn't get a go over if they make a mistake either. So why should the starters be allowed a second chance?

Submitted by Matt Sharp CRN 2315.
