RISK MANAGEMENT POLICY

Introduction

Many incidents occur because there are no formal procedures leading to safe practices or processes. With this in mind, a strategy has been designed to assist the AFA in the development of formal procedures to eliminate or reduce the risk of injury or incident.

Purpose

The aim of this policy is to establish a procedure to maintain the safety and health of members, dogs, volunteers and the public by completing a Risk Assessment to identify hazards, assess risks and provide risk controls.

Benefit:

- (i) Early detection of risks;
- (ii) Systematic procedures for identification, assessment and control;
- (iii) Documents the statutory requirements; and
- (iv) Conforms with legislative requirements.

Policy Statement

The Australian Flyball Association Inc. (AFA) is committed to a Zero Harm Environment. The AFA Committee, Affiliated AFA Organisations and AFA Members have a responsibility to identify and control significant risks.

Definitions

AFA – the Australian Flyball Association Inc, a not-for-profit association of Members, Associate Members and Affiliated Organisations with the objective of facilitating the development of the sport of Flyball in Australia.

Risk Assessment – The systematic reviewing of work systems and equipment to identify potential hazards, the assessing of each risk to evaluate the likelihood of the risk being realised and the consequences if it occurs and then the development and implementation of controls.

Flyball - Flyball consists of a relay race between two teams of four dogs. Each dog must jump over four hurdles, retrieve a ball by triggering a flyball box and then return over the hurdles to the start/finish line.

Responsibilities

The AFA Committee – responsible for adopting this policy, monitoring changes in legislation that impact risk management and for reviewing this policy as and when the need arises.

The AFA Committee, AFA Affiliated Organisations, AFA Members, contractors and volunteers – responsible for the implementation of this policy.
